### Admitted the Facts.

Newspaper editors have to be very careful in opening their columns for statements. But aware that the Dr. Miles Medical Co. are responsible, we make room for the following testimonial from R. McDougall, Auburn, Ind., who for two years noticed a stoppage or skipping of the pulse. His left side got so tender he could not lie on it, his heart fluttered, he was alarmed, went to different doctors, found no relief, but one bottle of Dr. Miles' New Heart Cure cured him. The elegant book, "New and Startling Facts," free at A. R. Champneys'. It tells all about Heart and Nervous Diseases and many wonderful cures.

—Try a glass of that pure fruit juice soda ice cold at Champneys' drug store.

—The latest fad in addressing envelopes is this: "Perryburg, Ohio, Mrs. John Smith." The new scheme is a great boon to postal clerks in making up the mails, to whom the name of the party is nothing, but the name of the destination is everything. With the town and State written first in plain, clear letters, the clerk will put up mail one-third faster, and with greater accuracy.

—Under the impression that the Ohio game laws allowed the killing of squirrels after June 1, some hunters have already begun to kill them. For the information of all, that portion of the present game law referring to squirrels is here quoted: "No person shall, in any place, catch kill or injure, or pursue with such intent, any gray, fox or black squirrel, except between the first day of July and the fifteenth day of December, inclusive." The woodcock season opens July 15 and closes November 1.

—Perryburg council has passed an ordinance prohibiting bicycle riders from running their wheels on the sidewalk, but Toledo wheelmen don't seem to know that such a law has been passed. A young man was riding on the walk in front of Geo. Pfister's place last Wednesday and frightened George's horse which broke the shafts and busted his harness, and was only prevented from smashing things generally by the arrival of help. The wheelman was arrested and settled the case.

—Blood orange (pure fruit juice) soda (a thirst quencher) at Champneys'.

—C. F. Chapman and H. H. Sargent went up to Northern Michigan on business connected with their factories and while there they endeavored to enjoy themselves. Mr. Sargent had a great desire to catch a few of the gamey speckled trout and one morning he arose long before the sun began to shine and in company with two residents of the locality, he silently stole away, leaving Chapman asleep, and traveled off into the woods to find a brook. Mosquitoes are very thick up there and the fishermen use a thick coating of carbolic acid salve on their faces and hands to prevent being devoured. Sargent said he saw two mosquitoes sailing through the air carrying a grip sack full of steel drills which they use to bore through the coating of salve and into the skin of the fisherman. After four hours of careful work Sargent caught one trout three inches in length, and now thinks he has sufficient experience to be able to tell fish stories for the next two years, and as he is a traveling man it is safe to bet he will make those stories strong enough.

Are you troubled with corns or bunions? If so, let us give you a little advice. Pare them down as closely as possible without drawing blood; then soak them in warm water to soften them and apply Chamberlain's Pain Balm twice daily, rubbing them vigorously for a few minutes at each application. A corn plaster should be worn for a few days to protect them from the shoe. As a general liniment for sprains, bruises, lame back or rheumatism, Pain Balm is all that can be desired. 50 cent bottles for sale by A. R. Champneys.

### More Dead Than Alive.

The above heading does not refer to any particular person, but to the society known as the High-School Alumni, a society which started out with flattering prospects and with indications of being a society worthy of its members it has gradually died out and many of the members seem to have no desire to do anything to keep it up. The President has called for a meeting to be held at the High-school next Monday afternoon at 4 o'clock, and it is hoped every member will either be present or send in their dues, which are only 50 cents, and signify their willingness to assist in any arrangements for the annual entertainment that may be made by the members who are present at the meeting. Let this effort to resurrect the dying society be successful. Let those who have had the honor to graduate from the Perryburg High-school have sufficient pride to make the future of the society a brilliant one. Attend the meeting without fail.

### SPECIAL ANNOUNCEMENT.

We have made arrangements with Dr. B. J. Kendall Co., publishers of "A Treatise on the horse and his diseases," which will enable all our subscribers to obtain a copy of that valuable work FREE by sending their address (enclosing a two-cent stamp for mailing same) to Dr. B. J. KENDALL CO., ENOSBURGH FALLS, VT. This book is now recognized as standard authority upon all diseases of the horse, as its phenomenal sale attests, over four million copies having been sold in the past ten years, a sale never before reached by any publication in the same period of time. We feel confident that our patrons will appreciate the work, and be glad to avail themselves of this opportunity of obtaining a valuable book.

It is necessary that you mention this paper in sending for the "Treatise." This offer will remain open for only a short time.

### A Remarkable Offer.

We are gratified to be able to present to every subscriber to this paper the opportunity to secure, on terms which are really extraordinary, Nathaniel Hawthorne's most celebrated story, "The Scarlet Letter," one of the most famous and most fascinating stories in American literature, which richly deserves universal circulation. Until within a few weeks, the cheapest edition of "The Scarlet Letter" which could be had was, in cloth binding, \$1.00, in paper, 50 cents. By special arrangement with John B. Alden, publisher, of New York, we are now able to offer:

To each one of the readers of this paper whose subscription is paid in advance to Jan. 1, 1893 (if not paid you can at once make payment and secure these terms), we will cause to be sent by mail, post-paid, this story complete, in newspaper form, large type and fine paper, for the nominal payment of FIVE CENTS.

The same story is published, also, in a handsome clothbound volume, which we will furnish to our subscribers as above, if they will call for the book at this office, for the nominal payment of 10 cents. If desired sent by mail, send us 15 cents for it.

The above really remarkable terms we are able to offer only upon condition that orders are immediate. They must be received at this office not later than June 7, 1892, so that we can send all orders to the publisher by that time, and have the bound books sent by freight in one shipment. A sample of the bound volume, can be seen at this office; to those who call to see it we guarantee satisfaction; it is a thoroughly well made and handsome book. Specimen chapters of the story, showing also the size of type, and the quality of the paper, which is really excellent, may be had free, by sending a postal card to John B. Alden, Publisher, 57 Rose St., New York.

This extraordinary offer is practically a "good will offering" on our part, to our subscribers who have not paid in advance. We hope it will stimulate some who have not yet paid for the year, to make payment at once, and also that it will induce some who are not subscribers to put their names on our list.
